

kate senger

A bride and groom are walking away from the camera in a field during sunset. The groom is on the left, wearing a grey suit and a boutonniere. The bride is on the right, wearing a white lace wedding dress and a veil, smiling back over her shoulder. The background is a soft-focus landscape with trees and a golden sky.

hello there

I can't wait to learn about you and
hear about your wedding plans.

first off, i'm kate

I shoot a bit nontraditional, and I shoot with my heart. I am passionate about visual storytelling because no two couples or weddings are the same. What's important to me is focusing on your authentic relationship, the people you've asked to accompany you, and all the details you've crafted for your day.

My photojournalistic approach allows real, candid moments to naturally unfold. Yes, I take time to capture and carefully go through family and bridal party portraits, but my overall goal is to freeze the raw emotion and beauty.

Your memories will live on in these photographs, and couples come to me because they want their unique wedding story documented. When they turn the pages of their wedding album they want that magical day to wash over them once again. Remembering the anticipation for what's next as the bride slipped into her wedding gown. Remembering that feeling of joy when you saw your love for the first time that day. Seeing all the smiles and a relative misty-eyed as they tried to hold back tears of happiness.

Not only do I want to capture these moments that will accompany your day, I also want to assist you through your wedding journey by being someone who can help you feel prepared. I've been to over 50 weddings, and I've compiled everything I know and created a Wedding Day Guide for all my couples. This guide dives into frequently asked questions, wedding day timeline examples, family portrait pairing examples and more. I know there's a lot to think about, a lot to plan, and I'd like to help make your life a bit easier so you can focus on what's important, like enjoying your engagement.

human relationships and intimate moments inspire me —

And this is what drives my approach to photography. You deserve to be your candid self, everything from quirky and fun to genuine and relaxed. This is what true, unscripted moments are all about and what helps tell your unique story. There should be as much emotion in your photographs as there is beauty, and I won't settle for anything less. I want to get to know you and start a friendship so we can create something special that you'll treasure forever.

wedding packages

the engagement session

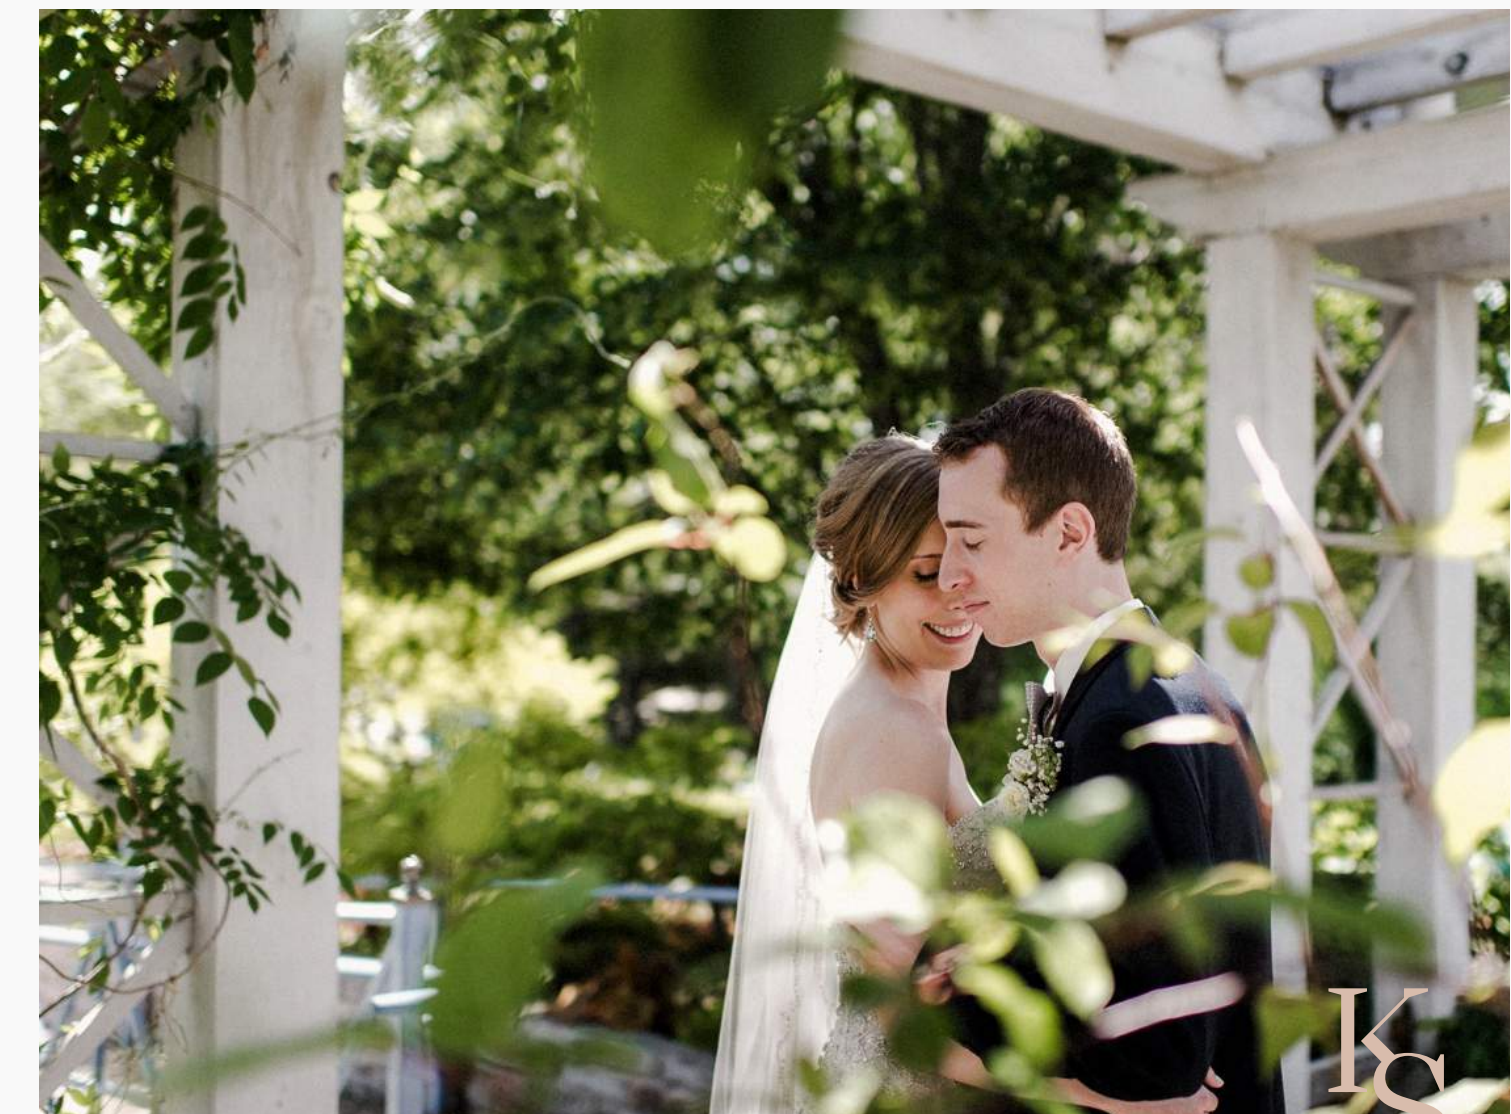

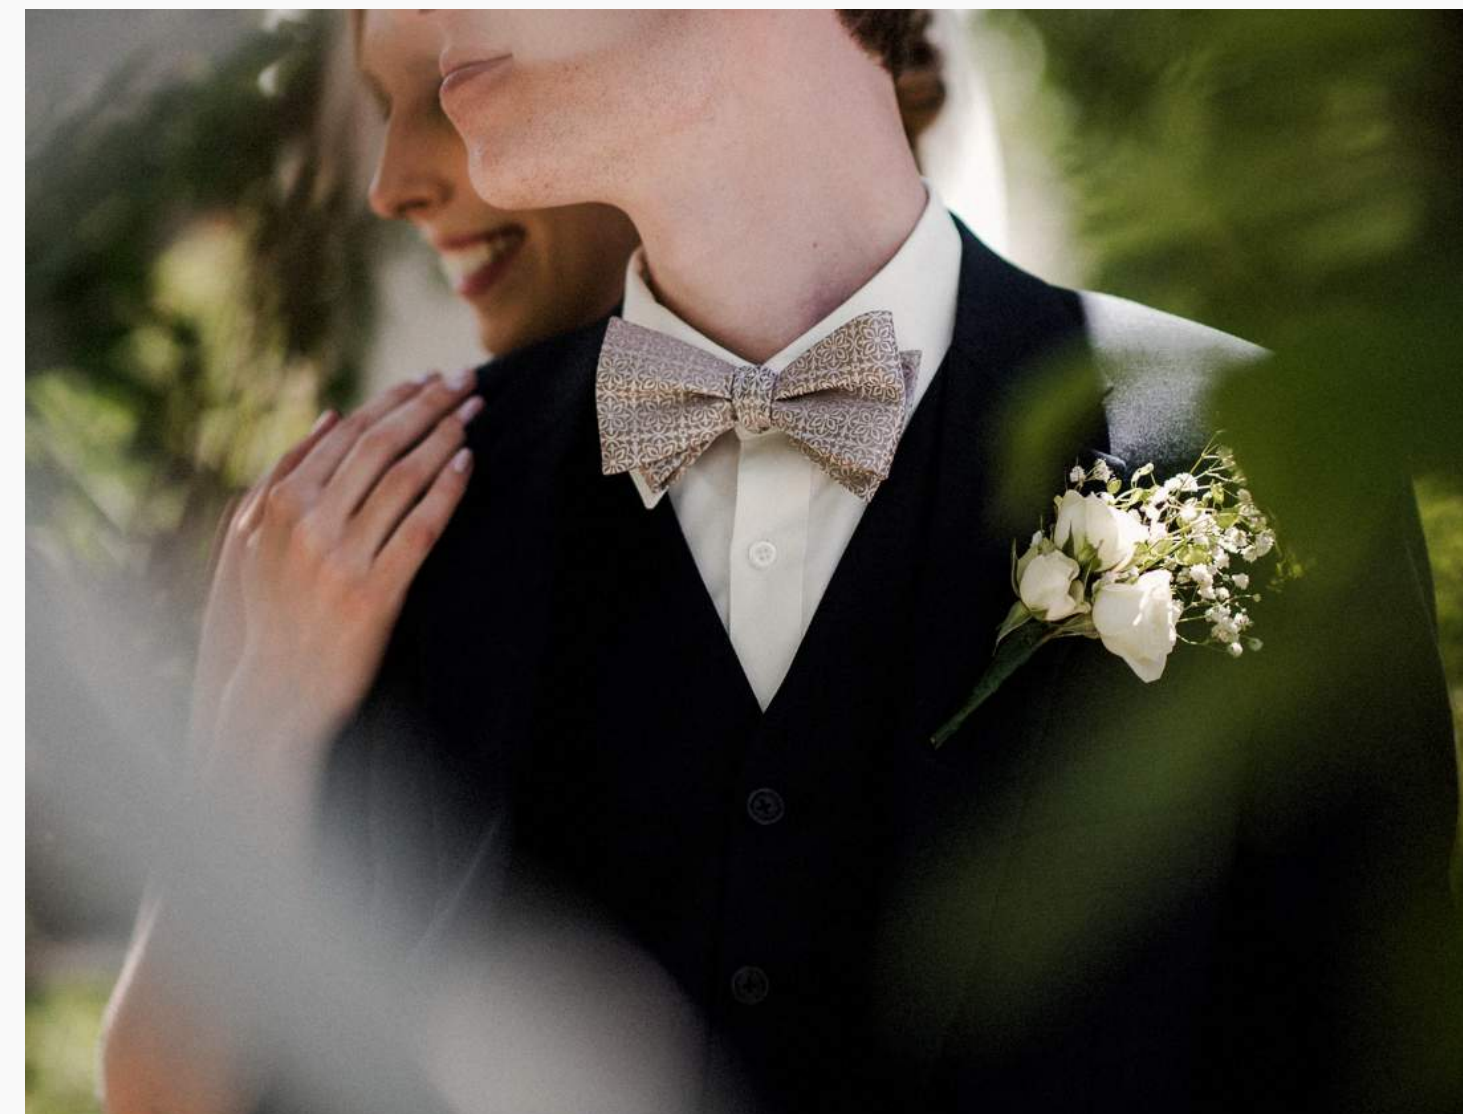

Engagement sessions are for you. They can be used for save the dates, invitations, or your personal wedding site, but at its core, these images are a gift to yourself! And wonderful practice before the wedding day! A session like this is the perfect opportunity to get comfortable in front of the camera and build trust in our relationship. Give yourself the gift of more memories by adding this to your custom package.

wedding albums

I encourage my couples to consider a custom designed wedding album for many reasons but two important reasons I've found are:

1. I find a lot of clients don't print their detail shots. Albums are a great place to showcase the time and effort put into all the details surrounding your wedding day.

2. Images are often appreciated more when viewed in print. The albums I create are simple and timeless and make a great coffee table centerpiece. Having an album allows you to easily share your images with friends and family creating a more personal viewing experience.

"One of the most treasured things about you is that at any given moment you are blissfully unaware of just how perfect you are."

- Tyler Knott Gregson

the booking process

I book a limited number of weddings per year to make sure I can give my very best to each of my couples and I book on a first-come first-served basis.

In order to book your wedding and/or engagement session date, I require a signed contract along with a 50% deposit. The remaining balance will be due 30 days before your wedding.

I think it's important we get to know one another. If your schedule allows, I'd love to meet you in-person. For those who are further away and can't travel we can always setup a Skype session or phone call. As convenient as online communication is, being able to talk in-person or over the phone helps dispel any mystery.

thank you

I'd love for us to get to know each other and talk about your wedding plans so we can collaborate and make something great. If you have any questions please reach out as I'm happy to help!

KS
